**Downtown Environment Work Group
Meeting Notes**

Cannon Moss Brygger Architects, 302 Jones Street, Suite 200

12:00 p.m. November 15, 2016

Present: Stacie Anderson, David Brockshus, Melissa Campbell, David Carney, Ragen Cote, Glenn Ellis, Terry Glade, Dawn Kimmel, Kathie Pfaffle, Kevin Randle, Brent Ruch, Matt Salvatore.

Randle presented the Downtown Parking Assessment, which was compiled over the summer to determine how public parking is being used in downtown. The results showed an estimated 35% of combined on-street and garage parking was being utilized. The next step will be to add more information to the report on lots, Parkmobile and revenue data.

Campbell gave an update on the city's recycling of glass and reported on the availability of recycling containers in general downtown and separation needs. A survey could be drafted to gather information on the needs of downtown businesses and properties to determine if containers are needed and how they would be used. Kathie Pfaffle and Stacie Anderson will work with Melissa and the group on a recycling plan at the next meeting. Ideas included involving Morningside College, focusing on Earth Day and possibly a monthly litter campaign with the Environmental Advisory Board. Other communities do a "trash bash" events, so we could make something like that locally.

The group was asked to take a look at the timeline <http://downtownsiouxcity.com/whats-happening/> for additions and edits to help keep information current. Wayfinding also remains a strong topic to continue discussing at upcoming meetings and with City staff.

Next meeting

There will be no work group meetings in December.

The next meeting is scheduled for Tuesday, January 17 at 12:00 p.m. at CMBA (302 Jones St. #200)
